Copernicus Group - German-Polish Expert Group

Darmstadt / Kreisau

The members of the "Copernicus Group" feel committed to an adult dialogue that is as free of complexities as possible, and do not gloss over points of dissent, but recognise the overriding common agenda of Germans and Poles in a European peace order. The participants see this openness as an advantage that frees them to look beyond national vanities and prejudices, with these becoming the subject of their discussions and their working papers.

A special feature of the discussion group that sets it apart from other German-Polish discussion forums of various formats is the fact that all participants are bilingual, i.e. they debate equally in German and Polish.
